Prayer is the common for the children. They pray twice in a day (Morning & Evening). They pray both of Buddhism & Christian. We are same. We love each other. And even we always pray for both of you those who are supporting us. We pray for World Peace and Love. We pray for them those who are hungry and starving like us. We pray for them who are crying for education like us. We pray to stop War and Terrorist in the world.

Children are taking food in the dining hall. I always try to provide them sufficient food and delicious food. After having the dining hall the disciplines are very nice. Now children are very happy having food in the nice place. They always thank you for this.

The children are singing a song. They do not forget to practice their cultures and traditional program.

Children are studying in the study hall. They study regularly and teachers also always look after them. Clothes to the children are provided.

Now it is our good opportunity to start Computer training center for the children which now become part of life of any citizen of Bangladesh. In the meantime our Government also declared our country as "Digital Bangladesh". Today computer will play a significant role for building career. In ground floor there will be storage and prayer room, first floor will be used as resident, 2<sup>nd</sup> floor for computer training. I would like to request you to please try to help the possible amount Tk. 3, 50,000 to finish this construction in this month.
